Hallo dear MMMonVHF friends,

please find below our lastet NEWSLETTER from the VHF-DX-Portal
"Make More Miles on VHF" (www.MMMonVHF.de), dated 2011-05-05
We attempt to distribute our Newsletter, once a week (thursday)
from now on - if any special activities will make it necessary
we will inform you with Breaking News or a Special NL-Edition.
For further detail please be so kind and watch our "News"-page
http://www.mmmonvhf.de/latest.php - you vy welcome for any
input and we do hope you will enjoy the VHF-DX-Portal MMMonVHF!

** V/UHF Contest "Memorial CT1WW" in memory of Tiago - CT1WW **

The Portuguese radio amateur club "Tertï¿½lia Radiomadorï¿½stica Douriense"
organizes next 7 and 8 of May (from 14h00 UTC/Saturday to 14h00 UTC/
Sunday) the V/UHF Contest "Memorial CT1WW" in memory of Tiago - CT1WW.
The contest will be held in 50MHz, 144MHz, 432MHz and 1296MHz. The logs
should be received, in EDI format, before 15 May (23:59 UTC) via email
log@trd.qrmzero.com . Now that 6 meters E-Sporadic season just started,
this may be a good opportunity to do some VHF QSO's. The contest rules
can be found in the club website http://trd.qrmzero.com, directly at
http://trd.qrmzero.com/memorialct1ww/2011/Regulamento memorial CT1WW
2011 ENG.pdf . Many thanks in advance. Best regards, on behalf of
Tertï¿½lia Radioamadorï¿½stica Douriense Carlos, CT1HSN direct to MMMonVHF

** BEACON in PY during Araucaria DX Contest **

We enrolled our beacon in the contest Araucaria DX group VHF he is
24 hours in the air in three tones issuing 144,295 pilots and
identity in CW. OSJ antenna to 16 meters 25 watts, a true challenge
not? in this city of Goytacazes rj, played by a CPU 2500. Who will
kill this figurine? the challenge is FM modulation Who knows a duct

** VK2KU at Home back at home **

Hi Everyone, My sincere thanks to the many who sent me their good

wishes recently, following a totally unexpected visit to Goulburn
hospital, where the food was fine when I was allowed to eat it!
I am now home, but it will be at least a week or two before
I am likely to visit the shack, which at 100m now seems impossibly
far away from the house. SOURCE: Guy, VK2KU via MoonNet
Our best wishes again, gd healthy! Guy (red. 8EBW)

** DXCC reached at Isao, JM1WBB **

So, I have got DXCC, worked 100 entities now. 2m EMEers: thank you for
your support and activities. Of course, I will call to ER and EY by
full power after the Japanese long vacation, HI. I need A2's QSL asap
SOURCE: Isao / JM1WBB via MoonNet - CONGRATS Isao-San (red. 8EBW)

** C56EME QSL Status **

After some delay (parcel with cards was lost in the post from the
printer to us) we did receive the C56EME qsl cards. The cards will be
send out the next days. If you did not send a QSL yet, you can send
yours to PA3CEE (adress at qrz.com) - SOURCE: Team C56EME via MoonNet

Announcement New DXCC 144MHz moonbounce - LAST NEWS from PE1L, dated
2011-04-30: Today 30 april the PJ4X moonbounce activity was ended. We
finished with 333 inits on 144 MHz in 50 dxcc countries and 10 inits
on 432 MHz. About QSL: QSL cards are ordered in two designs so the
lucky ones who got us on two bands will get two different cards.
All QSL wil go via PE1L and we kindly ask you to keep in mind that you
include enough to cover the costs. You can see your QSL status on the
log page at www.emelogger.com/bonaire and www.emelogger.com/curacao
If you do a logsearch you can see if you are in the log, if your card
is received and if our card is send to you. Best 73 Rene PE1L, Johan
PA3FPQ, Jurgen PE1LWT and Peter PJ4NX - PS there is a big change that
PJ4NX will pop up on the band so now and then!

XX/DL1YMK EME-DXpedition 2011
Hello fellow-EMEï¿½s, as announced earlier this year, we will set out
for our next EME Dxpedition end of May. We need 3 days for transfer
and for installing the station set-up, so we intend to start operation
provided all goes smooth, on Saturday, 28th May with 23 cm, wheather
permitting. As the country, which we want to activate, has very
limited power limits for amateur radio, the telecommunication
authority proposed to apply for a temporary commercial radio licence
in order to be allowed for enough power for EME (which we needed to
pay for, of course). So we will be active with our ï¿½normalï¿½ signal
strength, hopefully providing a new country for you over the moon!
As in the previous years we donï¿½t announce the assigned callsign in
beforehand to increase the fun for all interested hams in the first
days of operation. We hope to have excellent moon windows from
Australia and Japan (this time we have also equipment for the
Japanese frequency on 13 cm with us!!) to the States and Canada, so
all, who want to work us should be able to do so. Due to problems with
our available days for holiday this year, the operation is limited to
9 days ending with the participation in the 23 cm DUBUS contest on
4th and 5th June. Details at: www.mmmonvhf.de/latest.php?id=3794
SOURCE: Michael, DL1YMK via MoonNet

** Andy, GM0KZG/MM, is QRV again **

Andy, GM0KZG/MM, is QRV again for Es and MS on 6 m, while on the
Minna ("inshore ship") - I am now QRV on 6m from the ship. Running
100w using a 3 ele Eagle 3dx yagi, and the FT847. Some noise problems
up to S5 at times from the shipï¿½s propulsion system. I have about
270 degrees clear view, apart from the boom of the liferaft crane
directly behind my antenna. The LNA is not working just yet, so I
might be a bit deaf. We may be heading out for IO56 today (April 23rd)
I hope to use 50.168 ï¿½ for SSB and 50.260 for JT6M, during any
openings, and will be QRV evenings after 1600 utc, with possibly some
times in the afternoons at the weekends. LATEST NEWS from Andy,
GM0KZG/MM, dated 2011-05-01: 2 pieces of rope were removed in
Stornoway by divers, and the ship has left port again. Present
location is IO68 (April 30, 16z). Heading for IO78...
LATEST NEWS from DXCluster, dated 2011-05-04: Andy was qrv from IO69!

** V55EME 6m EME from Namibia **

LATEST NEWS from the V55-Team, dated 2011-05-04:
Dear Friends, Today we was able to complete 3 QSO on the worst
conditions you can imagine. Moonrise don't work, we have a small hill
blocking EL, but we will try to TX ALWAYS. W7GJ was -26 but with EL in
16 degrees, later W1JJ was -20dB but looks like Ground reflection
gain works better on 12 degrees and less. Last QSO today was with
ES6RQ with -26dB when we have only 1 degree EL. Extra ground reflexion
works perfect during Moonset. We have no pre-amp and with worst
conditions we was able to manage this QSOs. We will TX always in
Moonrise and Moonset, conditions are improven and May 10 and up we
will have DGR 1dB only (5 db better than now). The antennas installed
by Hanspeter HB9PHJ are working great.I want to extend my
congratulation to Martin V51W (the owner station) for the big effort
done before my arrival to Namibia, They are really motivated to learn
JT and for sure we will have a permanent Active station for long
future. We just start, please be paincient and you will add a new
DXCC country in your list. 73 de V55EME group
SOURCE: tnx to Alex, HB9DRI, direct to MMMonVHF and via MoonNet

** EA3LA/p qrv from JN12IK during the IARU Contest **

During 7-8 mai , ea3djl,ea3bsg,ea3la will go to Pic de Salines at
1400 m. this year with 10 Ghz . Locator JN12IK. 144: 350 watts + 5 WL
+ prev. - 432: 250 watts + 38 ele. + prev. - 1296 : 150 watts + 55 el
+ prev - 10 Ghz : 1 watt + 1,20 parab.
 If the weather is good, listen in 144 Mhz 73.
SOURCE: tnx to EA3LA direct to MMMonVHF

** Holiday Activity on 50 MHz from IM86 **

I will be active from 16. Aug. - 02. Sept. from IM86ar on 6m CW/SSB
Also Lighthouse number SPA-219 from my holiday QTH. Call: EA7/DH6DAO
SOURCE: tnx to DH6DAO, Reinhard, direct to MMMonVHF

** 4L1AN on 6m next month **

This is a preliminary heads-up to let you know that K5BM is heading

over to Georgia on May 25 to join up with 4L1AN, who just received a temporary 6m permit for their operation. They hope to be QRV on JT65A for EME during the optimum periods in June and July. The call will be 4L1AN, but the grid locator is not yet firmed up. They hope to be able to set up on the Black Sea shoreline, looking out over the sea on their moonset. Obviously that kind of location would give them an ideal shot at Es toward EU and possibly NA too. If they can arrange that, they would be in either LN01 or LN02. I am having my 6M7JHV yagi sent to them from the T31A DXpedition, but they are still looking for a 6M amplifier to use. Since 6m is not usually authorized in 4L, there are not many 6m amps around over there, and K5BM will probably have to take one with him. If you have any suggestions, please let John or Tom know. More information coming as it develops...GL and DX!
SOURCE: Lance Collister, W7GJ, via Magic Band EME Group

** Isle of Arran (IO75) qrv again **

Camb-Hams members Bob G1SAA, Terry G3VFC, Martin G3ZAY, Colin G4ERO, Colin G8TMV, Mark M0MJH, Rob M0VFC, Steve M1ACB and Gavin M1BXF will be active on the 1-8th of May 2011 from the Isle of Arran (IOTA EU-123 IOSA CL01, SCOTIA CS14). QTH will be a rented cottage on the west of the island near Balliekine (WW Loc. IO75HO). As usual most HF bands will be activated with SSB, data and some CW. VHF wise they will be on 6m and 4m SSB/data (JT6m) and being a little more south than Harris they will again activate 2m both SSB/data (FSK441). If they have time they will also be active on 2m and 70cm satellites. This year the CRG (Cambridgeshire Repeater Group) has a new callsign G6PYE which they will use alongside the traditional G3PYE, as the activation is in Scotland the prefix becomes GS for a club station in Scotland. Listen out for both GS3PYE/p and GS6PYE/p. QSL direct or via bureau to M0VFC

** JD1 - OGASAWARA, AS-031, WW-Loc. QL17 **

Makoto,JD1BLY (JI5RPT), Harry,JD1BMH (JG7PSJ), and
Masaru,JD1BMT (JE4SMQ), are staying on Chichijima (AS-031) again by the end of April and beginning of May but will stay there for different period of times. You can expect activities from:
JD1BLY: Apr 30 until May 7 - JD1BMT: Apr 30 until May 4
JD1BMH: May 4-13 - Activities are planned in CW, SSB and digital modes on 160m-6m and via satellite. You can visit the websites of the OPs for news and logs: JD1BLY: http://www.ji5rpt.com/jd1 and
JD1BMH: http://sapphire.es.tohoku.ac.jp/jd1bmh
JD1BMT: http://homepage3.nifty.com/maaberu/logsjd1/logsearch.html
QSL cards should be sent via bureau or direct to their homecalls.
SOURCE: DXNL 1725 - Apr 27, 2011

** KH0, MARIANA ISLANDS, qrv HF, 6m and Satellites **

Yoshi, JJ8DEN, is now active as KH0PR from the Coconut Village Hotel

on Rota Island (OC-086) until May 8th. Activity will be on 160-6 m.
using CW, RTTY and PSK. Also possible is some Satellite operations
(FO-29 and VO-52). QSL via JJ8DEN, by the Bureau or direct (w/SASE
and 2 USZDs or 1 IRC with European type envelope. If small envelope
is sent, Yoshi will return QSL card by surface mail [ship mail]).
DO NOT send QSL to Rota. SOURCE: Ohio/Penn DX Bulletin #1009

** SV5, DODECANESE, qrv HF and 6m **

Fred, PA1FJ, will be active as SV5/PA1FJ/P from Karpathos (EU-001)
between May 8-14th. Activity will be on 40-6 meters using CW and SSB.
He will use his Yaesu FT-817 into a Buddistick antenna and a 2x 5m
dipole. QSL via the Dutch QSL Bureau. SOURCE: Ohio/Penn DX #1009

** ZF, CAYMAN ISLANDS, qrv HF and 50 MHz **

Operators Bob/W5UQ and Bill/W5SJ will be active as ZF2UQ and ZF2EZ,
respectively, between July 11th and approx. July 18th. Look for them
to operate in the CQWW VHF Contest (July 16-17th), mainly on 6 meters
Activity outside of the contest will be on the HF bands using mainly
CW and some SSB. QSL via W5JAY (see QRZ.com).
SOURCE: Ohio/Penn DX Bulletin #1009

** V8, BRUNEI, qrv with V85/9M6XRO HF and 50 MHz **

John, 9M6XRO, will once again be active as V85/9M6XRO from Darussalam
 Brunei (OC-088), between May 4-9th. Activity will be mainly CW, but
also possibly some RTTY or SSB. John states V85 does not have an
allocation for 6m. As before, John will be running 400w to a Butternut
HF6V up about 100 ft. on the hotel roof. He mentions, "BTW during my
visit to Brunei in March, I made close to 2500 Q's with a high
percentage on RTTY. I have been asked by some Southern Hemisphere
stations to look for them on 80m CW so I will give that my best shot
on this trip :-)." QSL via M0URX, direct (w/SAE plus 1 IRC/2 USDs),
by the Bureau, or LoTW. Alternatively, QSLs may be requested using
M0URX's OQRS form at: http://www.m0urx.com/qsl-request-form ADDED
NOTE BY 9M6XRO: John will be visiting the U.K. and I.O.M between
May 19th and June 1st. He states, "I plan to spend the first part
until the 28th in the Isle of Man - then the latter part in Ayrshire
I hope to put GD3OOK on the air from home base for a last time!"
SOURCE: Ohio/Penn DX Bulletin #1009

** UT1FG/MM VOYAGE WRAP-UP **

Captain Yuri Bodrov, UT1FG/MM, wrapped up his 6 month voyage that took
him across the Atlantic Ocean 3 times and around the Cape of Good Hope
in South America and through the Panama Canal on his ship, the Mottler

He operated on the HF bands, 6 meters and also activated a few hundred grids to the delight of many satellite operators in Europe, South and North America. Walt, WP4T, and his ham radio family met up with him in San Juan, Puerto Rico, his final port before flying home. Captain Bodrov gave them the red carpet tour. Pictures from their visit are now available on the K8YSE Web site at: http://www.papays.com/sat QSL direct or to his manager UX0FY. SOURCE: Ohio/Penn DX Bulletin #1009
